Klub

The Agenda

First 10 minutes: I am Sam, Sam I am!

Hey Renee!

**Next 15 minutes: Join us on the D.A.R.K.
side, we have donuts**

Rest of the time: The Best DAM Christmas

I am Sam, Sam I am!

Good grief, no, I never sleep!

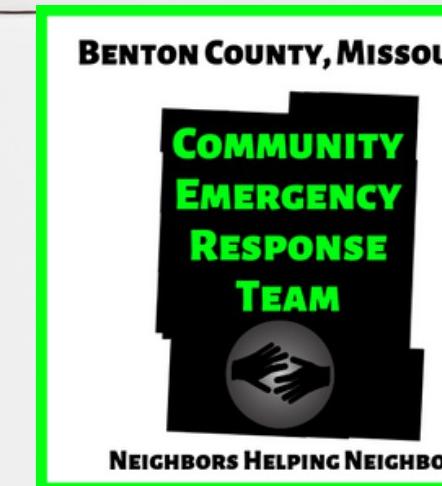

Join us!

Hey Renee!

I sleep more than Mom does. I was licensed as a ham radio operator at fourteen years old. I was a cadet firefighter before I turned 18 and became a full-fledged firefighter (number 120). I am the assistant secretary of D.A.R.K.

About D.A.R.K.

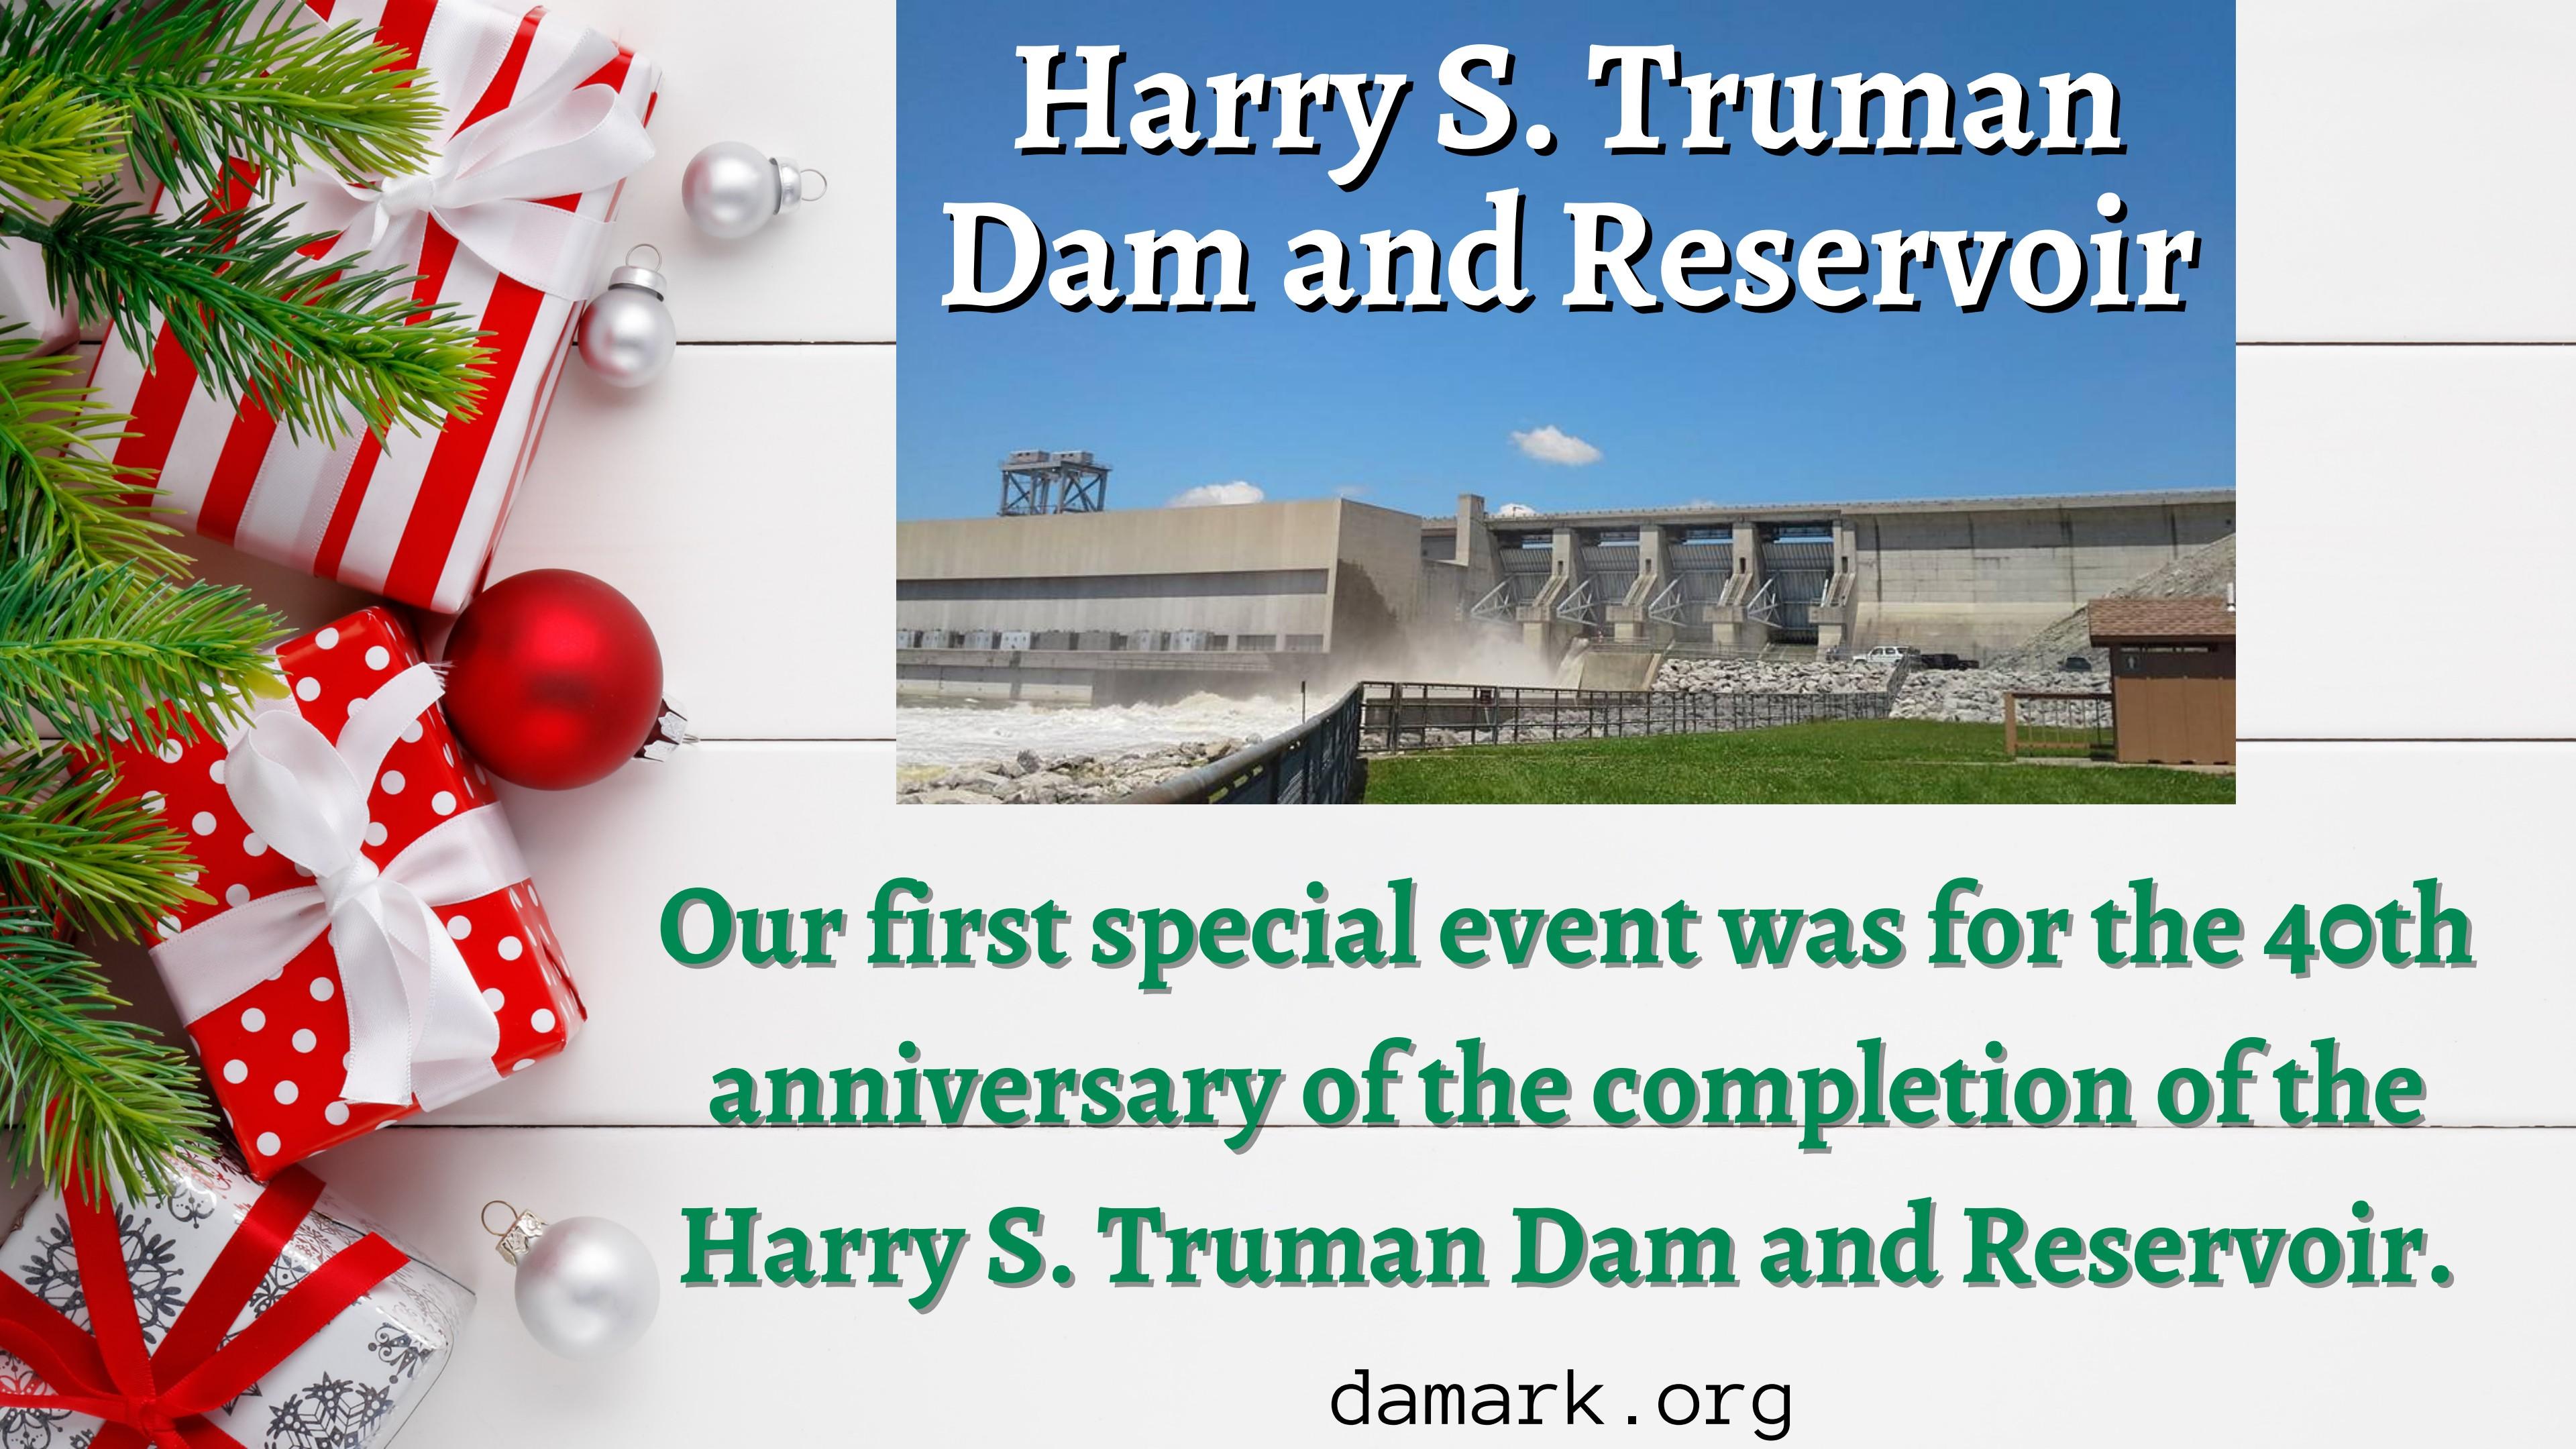

The Dam Amateur Radio Klub was established to educate ham radio operators about dams our members visit. This club's secondary function is to support the BC ARES. What we wanted to do when we created D.A.R.K. was to have a special event-based club.

Who Is Foxtrot?

Foxtrot is the mascot of D.A.R.K. and he helps us to run the section for little hams: Foxtrot's Little Hams!

Foxtrot spends a lot of his time finding new ways to make amateur radio fun and exciting for kids!

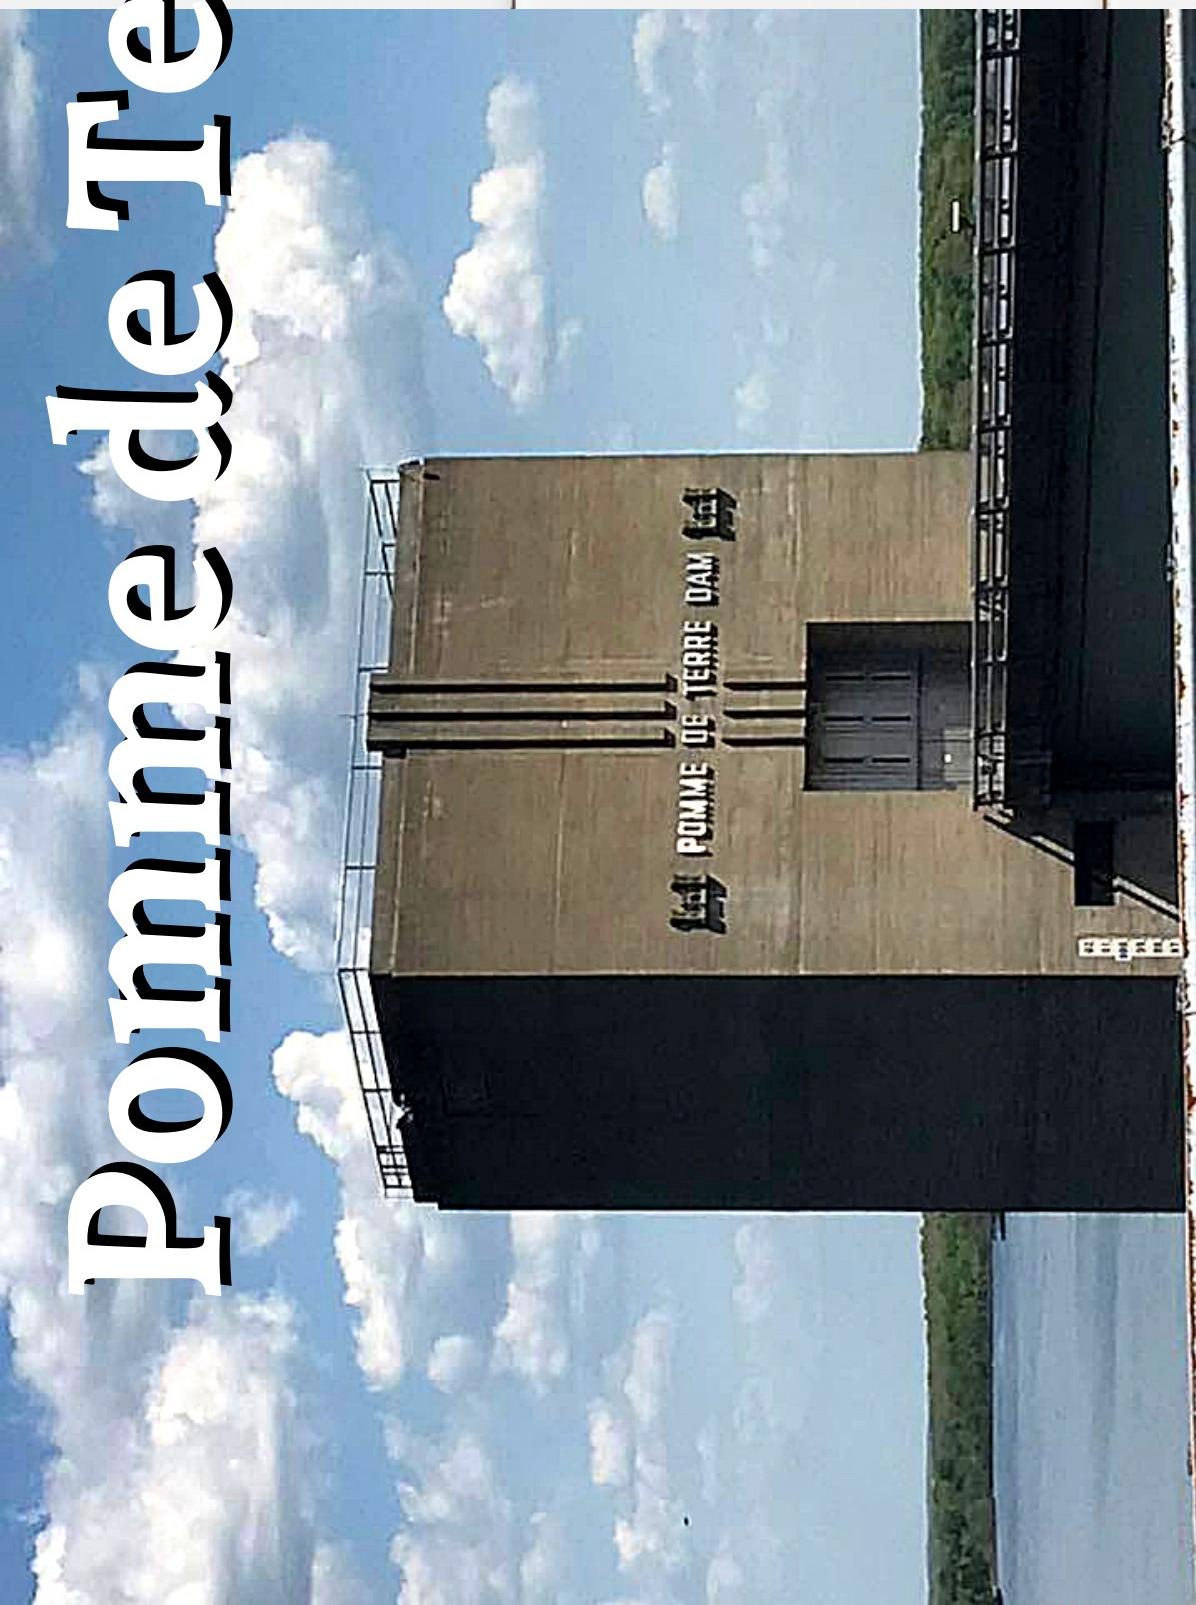

Harry S. Truman Dam and Reservoir

Our first special event was for the 40th anniversary of the completion of the

Harry S. Truman Dam and Reservoir.

Pomme de Terre Dam

Our second special event was at the Dam. This was the first event for which we were allowed to use the Benton County Emergency Communications Trailer!

How the Best DAM Christmas Came to Be

With so many things being canceled because of the COVID-19 pandemic, D.A.R.K. treasurer Roger Henley KD0WXT (Sam's husband) came up with the fantastic idea to host a month-long Christmas event during the month of December for hams everywhere!!!!!!

When we were choosing which frequencies and modes to operate on for our special event, Roger wanted to pay particular attention to the 10m band. Many special events do not include operations on bands where Technician class amateur radio operators can broadcast, so he wanted to make sure that Technician class operators had a chance to take part in our special event.

QSL Card

*there is also a PDF certificate which
can be emailed to participants

From: KE0TGG
Confirming our QSO on:
_____, 2020
at _____ UTC
Mode: _____ Freq. _____
RST _____ Watts _____
Remarks:
Thank you for participating in our Best
DAM Christmas Special Event!
Merry Christmas from all of us here
at the Dam Amateur Radio Klub!

damark.org

Additionally, we are designing a bonus QSL card for any amateur radio operators under the age of eighteen who score a contact with us during our special event! Young hams will get the above QSL card as well as a "top secret" card that will be sent directly to them from our club mascot,

Foxtrot
